Bradford Staph DDS
Dental Practice

Dear Friends and Patients,

It is with deep gratitude and a full heart that I announce my retirement from dental practice after 45 years of caring for this wonderful community.

Caring for you and your families has been a real privilege. Your trust in me regarding your dental care has been deeply appreciated. Over the years I have not only provided treatment but also shared in your milestones, listened to your stories, and built relationships I will treasure always.

Dr. Kisling and Dr. Staph

The practice is now in the very capable hands of Tyler Kisling, DDS. Dr. Tyler brings both excellent clinical skill and a genuine, compassionate approach to patient care. Dentistry truly runs in his family—he comes from a long line of dentists—and it is clear that caring for people is his calling. Patients describe him as personable, kind, and skilled at putting even the most anxious at ease. I have complete confidence that you will be in excellent hands and continue to receive the high-quality, thoughtful care you deserve.

Dr. Kisling was born and raised in Fresno, California, where he met his wife, Ashley, in high school. A third-generation dentist, he earned his undergraduate degree from UC Irvine before receiving his Doctor of Dental Surgery degree from the University of the Pacific, Arthur A. Dugoni School of Dentistry in San Francisco. His wife, Dr. Ashley Kisling, is an orthodontist and owner of SOCO Pediatric Dentistry & Orthodontics in Rancho Mission Viejo. Together, they live in San Clemente with their two young children, Sloane and Kade, and are proud to call South Orange County home.

For scheduling or any questions about your continued care, please contact the office. The team will be happy to assist you.

As I look back, I am filled with appreciation for the confidence, loyalty, and support you have shown me. Thank you for allowing me to be part of your lives and for entrusting me with your care.

I wish you and your families continued health, beautiful smiles, and every good thing in the years ahead.

With sincere gratitude,

Brad Staph, DDS
